

The Massachusetts Health Information Highway (the Mass Hlway), is the State-wide health information exchange which enables the electronic movement of health-related information among diverse organizations, such as doctors' offices, hospitals, laboratories, pharmacies, skilled nursing facilities and health plans across the state.

The Mass Hlway facilitates the exchange of clinical information among varied health care information systems, while maintaining the meaning of the information being exchanged, regardless of provider affiliation, location or differences in technology.

Mass Hlway

To participate in eLINC and the Mass Hlway: Read the Patient Consent Form and select "opt-in".

This will provide access to all physicians who are on your medical team. Note: You only need to "opt-in" once and you are able to "opt-out" at any time.

eLINC

...is a secure, encrypted electronic network, protected by law, which allows for your medical team and emergency physicians immediate access to your most up-to-date health information.

SAFER

Whether it is a medical emergency or routine doctor's appointment, you want your medical team to have access to your or a family member's health information quickly, so they can start giving you the treatment you need, which could potentially save your life.

SECURE

Your information is protected by the Health Insurance Portability and Accountability Act (HIPAA). This privacy rule gives you the rights and sets limits on how your information can be shared with others. We do not store your medical record; we provide a secure network for your health providers to share electronic health information.

All access to your health information is audited by the **eLINC** Privacy and Security officer. You have the right to request a report of who accessed or shared your health information by contacting the **eLINC** Privacy and Security officer at 781-756-7890
